#### Chicago Grain.

Chicago, July 2.—Reports of black rust in South Dakota and of other damage in the northwest by excessive moisture forced wheat speculators today to the buying side. The opening, which was the same as last night to 2c higher, was followed by a decided upward upturn.

The close was firm at 19 1/2c to 1 1/2c above last night.

Showers over the Ohio valley and in other districts where there has been complaint of drought caused off the corn market. After starting unchanged to 3c lower, and suffering a further decline, values recovered in nearly last night's level.

The close was firm at exactly the same as last night.

Outs were governed by the action of corn.

Higher prices for hogs tended to hit provisions.
